

WHEELER WINS MANY EVENTS AT MADISON

SECURES FIVE FIRSTS AND ONE SECOND.

At Camp Randall Yesterday Afternoon He Surprised the University Students When It Came to Athletic Sports—None Could Equal His Feats.

Madison, Wis., Oct. 22.—[Special].—Yesterday afternoon at Camp Randall, which is the athletic field of the university of Wisconsin, the freshmen and sophomores of the varsity, held their annual field meet. The field was in very poor condition. This and the chilliness of the day did not permit of any record breaking. A. K. Wheeler, the Janesville athlete, without doubt was the star performer of the day. He won five firsts and one second. In none of the events was he crowded. The events won by him were as follows: High jump, first, 5 feet 7 in.; pole vault, first, 9 feet 6 in.; broad jump, first, 19 feet 4 in.; putting 16 lb. shot, first, 33 feet 8 in.; Wheeler, second, 33 feet 4 in.; throwing 16 lb. hammer, Wheeler, first, 84 feet; discus throw, Wheeler, first, 98 feet 4 in. In the shot-put Wheeler put 34 feet 1 in. but was disqualified for stepping out of the ring. This left him second with 33 feet and 4 inches. Wheeler is without doubt one of the best all around athletes in the United States. The records made by him place him among the first four. He is an athlete of whom Janesville may well feel proud. Wheeler is enrolled in the university as a junior law student. In the meet this afternoon he took part as a Sophomore, winning 23 points for his class. The Sophomores won out in the field events, rolling up a grand total of 85 points as against 43 for the Freshmen. In the 100 yard dash, three winners of the 100, in the Interscholastic Field Meets, took part. McGowan, Jones and Coles. McGowan won the event in 10 4-5 seconds. Temple, the trainer of the foot ball team and also of last year's track team, in speaking of Wheeler's work, said that he showed better form, for so late in the season, than any athlete at the varsity. John Fisher, manager of the foot ball team, has had his hands full for the past few days in arranging all the particulars for the Wisconsin-Beloit game. In his management of foot ball affairs so far this season he has shown exceptional business ability. The students one and all unite in declaring him to be the best manager Wisconsin ever had.

HORSES WERE NOT HITCHED

They Ran Away and Crashed Into a Store Window.

A team of horses belonging to Samuel Tall ran away at 7 o'clock this morning, and to add plenty of excitement to the affair they crashed into a plate glass window in the door of the Bower City bank. The horses escaped being cut, and were captured with no further damage except the breaking of the tongue of the wagon.

The window will cost Mr. Tall about \$10, and it was the smallest one in the place at that. The team were left unhitched by a careless driver.

SOLDIERS PAID OFF AND MUSTERED OUT

CO. A, FIRST WISCONSIN IS ONLY A MEMORY.

Eight Thousand Dollars Paid to the Soldiers This Afternoon—Blankets and Overcoats Gathered Up and Shipped to Camp Douglas—Sick Reports Filed.
Eight thousand dollars of government money passed into the hands of Janesville soldiers this afternoon. The men were assembled at 1 o'clock but it was 3 o'clock when they were lined up before the mustering officer. In the meantime discharge papers were completed, blankets and overcoats were gathered and each soldier made a written statement of his physical condition.

The officers in charge of the work were Major H. E. Bradley, of the medical corps, Major B. H. Fay, of the paymaster's department and Captain E. P. Andrews, of the Fifth U. S. cavalry. Colonel Caldwell, of Governor Scofield's staff, was on hand to pack up the blankets and overcoats and ship them to Camp Douglas.

When the mustering out began the men were lined up for roll call. The names verified, the men were turned over to Major Bradley, who questioned each one as to his claim, for physical disability, as bearing upon pension allowances. In paying off the men were passed through the officer's room in single file. They passed between Major Fay and his clerk, the major handing out greenbacks, and the clerk making up the balance required in small change. Discharge papers were handed out at the same time and Co. A, First Wisconsin Volunteers existed only as a memory.

In disposing of company property, the overcoats and blankets, as said before, go to Camp Douglas. The rifles, knapsacks, belts, boyonets and canteens were shipped to the Rock Island arsenal yesterday, they being company property.

Decides for Secretary Gage.
Washington, Oct. 22.—Judge Cox in the district supreme court decided the cases of George F. Wightman and of William H. Wharton against Secretary Gage in favor of the secretary of the treasury. One suit sought an injunction and the other a mandamus, the basis of complaint in each being the rejection by the secretary of the treasury of bids submitted for the recent war loan bond issue by the complainants. Secretary Gage rejected the bids, believing the bidders really represented certain institutions.

Deaconess Man Is President.
Springfield, Ill., Oct. 22.—The nineteenth annual meeting of the Building Association League of Illinois closed Friday. Albert Barnes of Deaconess, was chosen president. Among the matters upon which new legislation is desired by the league are classification of stock, the holding of stock by minors and such a change in the present law governing the settlement of the affairs of insolvent associations that borrowers can be credited with the full amount paid in on their stocks.

Single Tax for Philippines.
Frankfort, Ky., Oct. 22.—Ex-Senator Lindsay expresses himself in favor of establishing the single tax in the Philippines in the event of acquisition of the islands by this country. Mr. Peck Gets More Space.
Paris, Oct. 22.—When Ferdinand W. Peck, the United States commissioner to the exhibition of 1900, arrived in this city the space allotted to the United States at the exposition grounds was 175,000 feet. Mr. Peck's first gain was 6,000 square feet, and he has just secured 22,000 square feet more by means of a direct order from the French government on the director of the exposition, making the present total 203,000 square feet. Germany has 150,000 square feet. It is not yet known how much space has been allotted to Great Britain or to Russia.

ROCK COUNTY LEVY FOR STATE TAXES

SECRETARY OF STATE ASKS FOR \$53,246.29.

This County Will Be Obligated to Pay The Third Largest Amount of Any County in the State—Reduction in State of \$502,500 From That of Last Year.

Rock county this year finds herself obliged to raise a state tax amounting to a total of \$53,546.29. Milwaukee and Dane counties are the only ones in the state obliged to raise a larger tax. Secretary of State Casson yesterday completed the apportionment of the state tax for the current year. There were several contests between counties before the state board of equalization, and the table was compiled after the board had considered all the objections to the apportionment. The total tax collected from counties this year, \$1,492,570, is \$502,500 less than the state tax of last year. The reduction is possible because the general state fund is now balanced, sufficient money having been collected last year to make up the deficiency then existing.

The treasury is now able to pay all the running expenses of the state without borrowing from the railroad companies or banks, and without drawing from the trust funds.

The tax last year was about \$800,000 more than that of 1896, and this extra amount was levied to fill the deficiency existing in the treasury. The deficiency had been bridged over for many years by borrowing from banks, railroads and the trust funds. The deficit of \$350,000 existed in January, 1897, and as the tax levy made by the legislature that winter did not go into effect in time to supply funds for that year, at the end of the year the deficit had grown to about \$650,000. To this was added large appropriations for the new reformatory at Green Bay, and the completion of the School for the People Minded, which swelled the hole in the treasury to about \$800,000, and the increase in the state tax last year was levied to fill it, and did fill it, so that now the state is in good financial circumstances.

HICKS WILL HAVE A GOOD HEARING

CANDIDATE FOR ATTORNEY GENERAL SPEAKS HERE.

Wheeler, candidate for assemblyman in this district. Good music will be a feature of the evening. The speaking will begin promptly at 7:30 o'clock. The meeting promises to be the best of the campaign. Mr. Hicks is noted as one of the best orators in the state and should have a large hearing.

Must Let Politics Alone.
Washington, Oct. 22.—The civil service commission has issued a circular, which is being sent to the members of the 700 boards of examiners throughout the country, on the "Political Activity of Federal Officers and Employees." The circular says: "While attendance at a political convention as a delegate, or membership upon a political committee, is not in itself a violation of the civil service rules, the commission holds that all partisan activity, if sufficient to impair usefulness as a representative of the civil service commission, is sufficient to cause removal from membership on any of its boards of examiners."

Deaconesses Elect President.
St. Louis, Oct. 21.—The conference of deaconesses which has been in session in this city for several days has adjourned after selecting Indianapolis as the next place of meeting. Rev. C. Schild of Buffalo, N. Y., was chosen president. Although the conference was the fifth annual one which has been held by the deaconesses, a constitution was adopted for the first time. The name chosen for the association is the Protestant Conference of Deaconesses in the United States of America. All denominations are admitted to membership.

Premiums on Loans.
Springfield, Ill., Oct. 22.—At this morning's session of the Building Association League of Illinois C. A. Wightman, secretary of the Evanston Building and Loan Association, read a paper in which he took the ground that premiums on loans should be abolished. This is probably one of the most important subjects that will come before the association and was very thoroughly discussed. The majority of the speakers were decidedly in favor of the position taken by Mr. Wightman. Joliet was selected as the place for holding the next meeting of the association.

INTEREST BENEFITS ALL THE PEOPLE

STATE FUNDS ADD TO THE TREASURY BALANCE.

All Moneys Received From That Source Revert to the Commonwealth—Nearly \$15,000 a Year Goes Into the Treasury, and Every Cent Is Honestly Applied.

Madison, Wis., Oct. 22.—Many democratic politicians during the present campaign have stated on the stump that the state treasury was not drawing any interest on the funds deposited in the banks known as state depositories. This assertion is untrue, as is shown by a statement issued by State Treasurer Peterson. The statement is as follows: "The books of the state treasury show that there was interest paid on the public funds in banks during the first biennial term of the present administration, from October 1, 1894, to September 30, 1896, amounting to \$29,820.42; and during the second biennial term, from October 1, 1896, to September 30, 1898, amounting to \$17,183.32; a total of \$47,003.74 for the four years. "The falling off during the past two years may be accounted for by the fact that instead of receiving and depositing, until the following June, the \$600,000 one-mill tax collected in February, the same was paid directly over to the counties by an exchange of receipts at the time of the settlement of the state tax, the law having been changed in this respect. This item alone would make a difference of \$12,000 in interest."

POPE ISSUES AN IMPORTANT DECREE

DOCTRINES OF LATE FATHER HECKER APPROVED.

Crusades Against Americanism Are Strictly Interdicted—Hecker's Ideas Pronounced the Highest Types of Christianity and Catholicism—A Radical Document.

New York, Oct. 22.—[Special].—The Evening Journal's Rome special says the pope has ordered the withdrawal of complaints against the doctrines of the late Father Hecker, and a cessation in clerical circles of the crusade against "Americanism." The pope is preparing an encyclical letter which will probably incorporate his last will and testament. In it the ideas of Hecker will be commended as the highest type of christianity and catholicism. Father Hecker's life was devoted to fighting the encroachments of European powers to use the church for the hindrance of the absorption of American ideas by immigrants.

579,368,274 ACRES LEFT.

Most of It, However, Is in the So-Called "Desert" States.

Washington, Oct. 22.—A statement prepared at the general land office shows that at the present time there are 579,368,274 acres of unappropriated and unreserved public land in the United States, exclusive of Alaska. Of this area 546,549,655 acres, or more than 94 per cent, are in the thirteen so-called desert land states and territories. Of the vacant lands in these states and territories it is estimated that 332,176,000 acres are of a character that may be denominated as "desert" under the law providing for the disposal of desert lands; that is, lands that do not produce native grasses in sufficient quantity to make an ordinary crop of hay in usual seasons is unfed by grazing animals, and lands which, without irrigation, do not contain sufficient moisture to produce a natural growth of trees or make an agricultural crop of any kind in amount to make the cultivation thereof reasonably remunerative.

There was an increase of nearly four hundred mineral entries during the fiscal year 1898, as compared with 1897. This, it is said, indicates a marked revival of the mining industry, which had fallen to its lowest ebb in 1895, when but 757 entries were made.

Charged With Embezzlement.

Milwaukee, Wis., Oct. 22.—Charles Plittkow and John Siegert, real estate bankers, who failed for several hundred thousand dollars recently, have been arrested on complaint of Mrs. Wilhelmina Stein, who charges them with embezzlement of sums left in their charge. The number of depositors who suffered by this failure is very large, and it is probable that a great many other similar suits will be brought.

DEMOCRATS ARE UNJUST

They Are Very Silent On the Point Of Republican Virtues.

Democrats are talking loudly about the present administration, but they fail to say anything in reference to the good results accomplished by it, or the position of Gov. Scofield on some of the burning questions of the day. For the first time in many years the business of the state is conducted according to the best business principles, much has been done in the way of classifying state employees, the state no longer anticipates its revenues, and a long start toward civil service has been made. On the subject of taxation the governor has expressed himself clearly and sensibly and a tax commission has been appointed. In all matters pertaining to the conduct of the war with Spain and the state's relation to the soldiers, the present republican administration has been prompt and active, and the governor himself has taken a personal interest and has accomplished results gratifying to all Wisconsin people of whatever political party.

J. F. Schindler, of Milwaukee, the man who has the nerve to think he has the ghost of a show of being the next insurance commissioner was in this city today looking for votes. As to the outcome of the election he says but little which no doubt is good policy. How he left the Populist party to be a good democrat and how the Populists feel about the matter are subjects he prefers to keep to himself at present. Mr. Schindler is looking well and says he is enjoying the best of health.

Negro Suspected at St. Anne.

Kankakee, Ill., Oct. 22.—Theories concerning the identity of the murderer of Mr. and Mrs. Emil Chiquiquy of St. Anne have narrowed to that which holds an unknown negro guilty. This negro was seen in St. Anne for three days preceding the crime. While he was in a saloon a man displayed a large roll of bills. The negro asked a bystander where the man with the money lived. By mistake he was directed to the Chiquiquy residence. Detectives have traced this negro to the Indiana state line.

WILL NOT PAY THE CUBAN WAR DEBT

SPAIN'S INSISTENCE MAY CAUSE A RUPTURE.

This Country Will Not Assume Any Part of the Island's Obligations—The Commissioners Have Been Fully Instructed—Negotiations May Be Broken Off.

Washington, Oct. 22.—[Special].—By insisting that the United States shall assume the Cuban debt the Spanish commissioners at Paris have taken the surest means of renewing hostilities. The American commissioners have full instructions on this point. They will not agree to pay a cent of the Cuban debt upon any consideration whatever and if the representatives of Spain insist much longer upon such a condition they will break all negotiations and return to Washington. There will be no averting from the announced policy of this government, no concession to Spain that could by any chance be construed as an admission of Spain's right to any interest in Cuba or indemnity for its loss.

I thought Hood's Sarsaparilla might help me and I began taking it and it has cured me. I have not had any return of the lameness in my back or tired feeling." Mrs. A. H. ALLMAN, Medford, Wisconsin. FINE ARTISTS ALL ROUND

Salisbury Company Promises a First Class Entertainment

The remarkable success of the Salisbury stock company in Milwaukee has been a feature of the summer season. All over the country persons interested in the theatrical business have watched the Milwaukee career of this sterling organization with absorbed interest and its unqualified success has been the direct means of inducing many managers to give up the combination system and themselves organize stock companies in their respective cities. The wonderful versatility of its various members has been naturally one of the chief factors in the success attained for they have proven themselves capable of shining with equal brilliancy in drama, melodrama, society drama—in tragedy comedy and even farcical comedy. Yet it is not surprising that an organization possessing such members should accomplish what it has done. Frederick Paulding is an artist

of the finest quality, the artistic beauty ideal, in fact, of a thoughtful character, a man who makes a close and separate study of each part determined to prevent in each case a clean-cut individuality which the spectator will remember. He is also a past master of the elusive art of make-up. Miss Maye Aigen is a most remarkable and versatile actress, in every sense of the word, and Miss Palmer is charming. The stage director is Mr. Lewis Mitchell, one of the very best and most experienced in America.

The Salisbury Stock Co. will appear at the Myers' Grand, Oct. 26th in "The Iron Master." Seats on sale Monday morning, Oct. 22 at 9 o'clock.

A Strong Seller

Why? Because it cannot be equaled elsewhere. Our little gent's shoes at \$1.10 and \$1.25, fine satin calf and heavy dongola materials are very strong sellers as well as good wearers. Sizes are 9 to 13. F. L. Quntsoe, advertiser of facts, corner W. Milwaukee and N. River streets.

Did You Ever Stop to Consider

Why we can sell shoes so much cheaper than others? It's because we sell for cash only. We have no losses resulting from bad debts, no expense to collect accounts. All this helps to put the price down. We sell ladies' shoes at \$1.50 that others ask \$2 for, we sell ladies' shoes at \$2 that others ask \$2.50 for, we sell men's shoes at \$1.50 that others ask \$2 for, we sell men's shoes at \$2 that others ask \$2.50 for, and so all through the stock. We like to compare values, we let you be the judge. F. L. Quntsoe, advertiser of facts.

INAUGURATED BY SPEECH AND MUSIC

ST. JOSEPH'S FAIR HAS AN AUSPICIOUS OPENING.

Rev. Father Reilly, of Whitewater, Speaks on Church Fairs and Patriotism—He Emphasizes the Duty of Allegiance to the Stars and Stripes—Dewey's Glorious Victory.

The Armory is now the scene of gatherings that savor little of the sanguary aspect of war. The sisters of St. Joseph are holding their annual fair there, and the hall is thronged afternoon and evening by large crowds who are not only anxious to assist a worthy cause but desirous of passing a pleasant evening in society that will benefit them in many ways.

The fair was formally opened last evening by Dean E. M. McGinnity. In a few appropriate words he introduced to the audience assembled Rev. Father Francis Reilly, of Whitewater, who said he was present by invitation. He predicted the success of the fair, patrons would not miss what they spent, as it was for a high and noble purpose. The sisters had placed their confidence in the patrons and expected the people to help them. He was fond of church fairs. He made that statement once before at a church fair, and when he was through talking he was surrounded by so many solicitors that it almost gave him the night mare and he wanted to recall the statement, but they wouldn't let him think that way. He had never drawn anything of value. He spent \$1.25 at one and got a 25 cent cuspidore. A friend who called on him two days later kicked it over and broke it. When the guest apologized Father Reilly said: "Don't worry about it. Misery loves company. The cuspidore is broke and so am I."

After referring briefly to the social advantages of such fairs as this, Father Reilly branched off on the subject of "Patriotism." He was deeply interested in this country and regarded it as the duty of every citizen to do all in his power to promote its interests. Patriotism is not a question of class or creed. In the late war with Spain this country rose in its might and called upon its citizen soldiery and they came in their might and fought with a will. When people talk about Spain's fleet, they ought to know what they are talking about. He thought that the Spanish fleet was out of sight. When Dewey finished it he did it on the first of May, and as that was moving day he made a complete job of it so there would be nothing left. No one heard of any of the Spanish ships in the Asiatic squadron being raised. Dewey went out for a morning appetizer, destroying a portion of the fleet in place of taking a mile walk for a constitutional. Then after breakfast he went out and finished the job.

In closing his remarks Father Reilly recited in a dramatic manner, "The Ship of State," which was received with loud applause.

The booths at the fair are well filled with fancy work of every description, mostly the product of the Sisters of St. Joseph's convent and the pupils in their school.

The fair will continue tonight and next week. On Monday evening Father Dorney, of St. Gabriel's church, Chicago, an orator of wide reputation, will speak. Each evening some new attraction will be offered and during the entire fair Smith's orchestra will be present to furnish appropriate music.

There is every indication that with a return of good weather this fair will be one of the most successful ever held in the city. There has never before been offered as many and as varied a list of attractions.

THE WORK OF PREJUDICE.

Three Incidents That Point to a Moral of Much Importance.

Crepe hung on the door at last. The undertaker was preparing the body for burial, and stood with a bottle of embalming fluid in hand, when a lady hurriedly came in from the street and said excitedly, "You haven't used any of that stuff yet, have you?"

The reply was: "Yes. Why?"

Why man, the child isn't dead. We have been treating her for a week with the Art of Divine healing, vulgarly called faith cure, and have just come in to give her another treatment, stand back and let me examine her.

The good natured undertaker quietly waited and finally said:

"Madam, the child was dead several hours before I was called in by the mother, who told me that she should never forgive herself for the prejudice that prevented her calling a physician instead of trusting a precious life in your hands. If you will kindly leave the room I will complete my mission."

A life sacrificed to prejudice. A young man was hobbling along the streets on crutches, six months before he had fallen and injured the ligaments of his right knee. He had tried all sorts of remedies and several physicians but to no purpose and in despair was about discouraged. A friend had said to him a number of times:

"Why don't you go to a specialist who makes a study of nerves and muscles and let him put your leg in shape."

"Oh," he replied, "I don't believe in specialists. I am prejudiced against anything but the regular school."

Finally in sheer desperation he went to a nerve and bone specialist on his crutches, and after a single treatment, left the office on his feet.

He had been a victim and sufferer from prejudice for six months.

A lady in St. Paul was being treated by a prominent physician of that city for a stomach trouble. She was a great sufferer and in spite of medical skill was gradually growing worse. Finally her physician told her that a surgical operation was the only thing that would give her relief. She wanted time to think the matter over and said she would decide in a week whether or not she would go to the hospital and submit to an operation. During the week a friend called and persuaded her before deciding on an operation to be examined by an Osteopath. The examination resulted in her deciding to try a month's treatment. At the end of the month she had gained fifteen pounds, had a good appetite, was feeling well, and pronounced herself cured. About this time she had occasion to be identified at a bank located in the same block as the office of her old physician, who by the way had been an old family friend. She stepped into his office and sat down and chatted for a moment. The doctor noticed her improved appearance and said to her:

"What have you been doing for yourself?"

She told him quietly that she had dreaded the operation that he had thought necessary and had finally tried as a last resort osteopathic treatment. At the mention of the osteopath the impulsive doctor snatched his hat from the table, and started for the door saying:

"It's all a fad and a humbug. I don't take any stock in it."

That is professional prejudice, cruel, unjust, intolerant, intelligent people have no time for that sort of narrowness.

By the way what is osteopathy? There are two or three things that it is not.

It is not a faith cure.

It is not christian science.

It is not a fad or a humbug. It is a modern science, pure and simple, as wonderful in many of its results as the science of electricity. It is a new school for the treatment of disease of various kinds.

The operators of this new science are skillful. They are graduates from colleges where time and money are spent freely in acquiring knowledge of their profession. They are thorough masters of physiology and anatomy, understanding every nerve, muscle and bone of the human body and their relation to each other.

The science teaches, and it is a reasonable claim, that when the circulation of the body is properly equalized, that the system is in a normal and healthy condition. This the science attempts to do without the use of drugs or medicines of any kind.

The results obtained in the treatment of rheumatism, ankylosis, diseases of the stomach and bowels and many other diseases is simply wonderful. Louise P. Crow, the osteopath, has an office in the Grubb block on West Milwaukee street, Janesville. In spite of prejudice she has established a good practice. Many of her patients are chronic cases, the most discouraging of any class with which the physician has to deal.

If you are interested in this new science that is rapidly gaining a foothold in many parts of the country, you will enjoy a visit at Louise P. Crow's office.

THE PRESIDENT'S JOURNEY.

Receives an Ovation in Indiana and Ohio.

LARGE CROWDS ADDRESSED.

Despite the Bad Weather Immense Numbers of Citizens Welcome the Chief Executive at Every Stopping Place—Accident at Kokomo, Ind.

Columbus, O., Oct. 22.—The presidential train arrived at Columbus about 8:30 p. m. Friday. Notwithstanding the heavy downpour of rain an immense crowd had assembled at the depot and the spacious building resounded with cheers. A committee of citizens met the president and accompanied by an escort of the Seventeenth United States Infantry and the Columbus rifles he was driven to the Auditorium. Fully 7,000 people, who had patiently waited more than an hour, were packed into the immense hall and the president's appearance was greeted with almost deafening cheers. The president was introduced by Mayor Samuel L. Black and spoke for about ten minutes, his address being frequently interrupted by enthusiastic applause.

One continuous ovation marked the passage of President McKinley over the states of Indiana and Ohio. Defying the wind and rain of a most disagreeable October day, the citizens of these states congregated in great numbers at every station along the line.

Perhaps the most imposing demonstration of the day was at Indianapolis, where the streets through which the president was driven to the state-house were jammed with cheering people. Here on the steps of the capitol, almost within the shadow of the statue of Thomas A. Hendricks, the president delivered one of the most striking and eloquent addresses of his long western tour. In the course of it he paid graceful tribute to the memory of Hendricks and referred also to ex-President Harrison, both of which references were received by the people with deafening applause.

At Noblesville, Ind., and Logansport the president made short addresses to enthusiastic auditors.

A distressing and fatal accident marred the pleasure of the welcome of Kokomo to President McKinley. Just as the train stopped a premature discharge of a cannon but a few yards away fatally injured James Jones and severely injured W. A. Smith and Louis Haney, all being members of the Sons of Veteran artillery squad. President McKinley witnessed the accident and several military officers of the presidential party assisted in caring for the injured men. At Rushville the train stopped for ten minutes and the space about the platform was well crowded. The president spoke briefly. At Connersville, Ind., Mr. McKinley addressed the people, who clustered thickly around the cars.

The last stop before Cincinnati was Hamilton. Here also the president addressed a great crowd.

A WOMAN'S AGE.

Dr. Greene's NERVURA

Makes Youthful Looks, Beauty, Health, Vigor.

The age of woman is not marked by years alone. The pinched face, the harsh voice, the angular form, the hollow eyes, the irritable disposition—such are the indications of premature age. Many women are older at thirty than others are at fifty. There are many peculiarities of women, and nearly all of them are of nervous character. Possibly a delicate constitution may have been inherited. Overwork and worry may have brought on a condition of exhaustion which no amount of rest can overcome. Lack of vitality means weak or impure blood, and the slightest exertion is more enervating to people in such condition than hard and continuous labor to those in good health. Poor blood fails to give proper nutrition to the nerves, and trifling annoyances are soon magnified. The slightest noise becomes a serious shock. A disagreeable word or a fancied slight is looked upon as some great sorrow. Headaches become frequent. Neuralgic pains are an almost unendurable torture. Dyspepsia comes on and intensifies all other symptoms by further impoverishing the blood and nerves. Troubles, both physical and mental, multiply until the climax is reached in complete collapse.

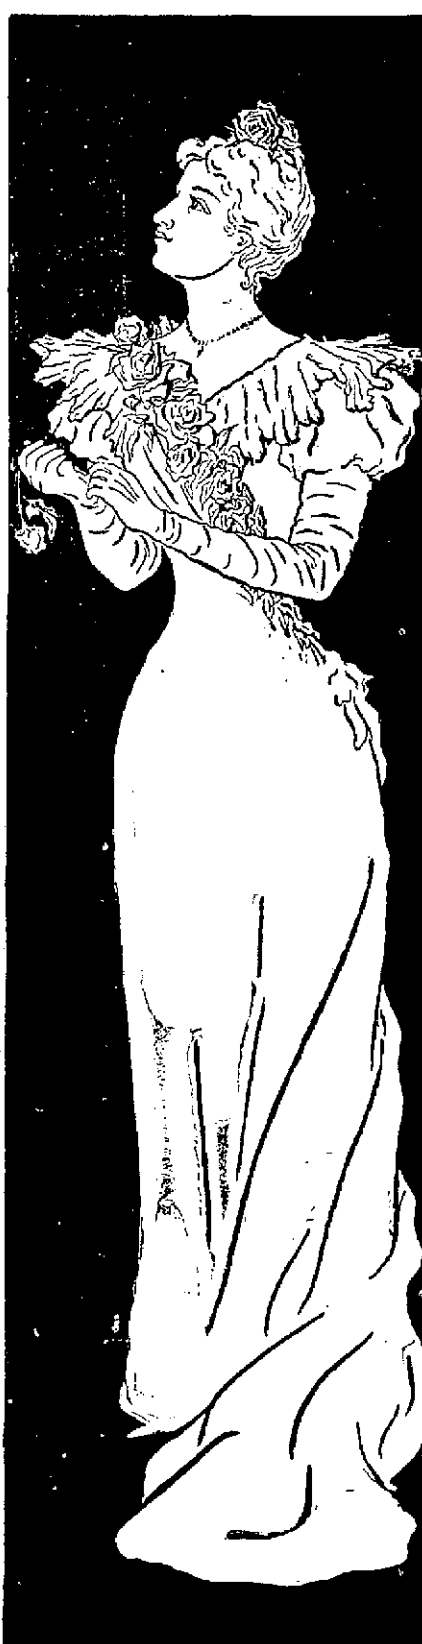

This is the dark side. Life is full of darkness, but there is more sunshine than shade in the world. Science has come to the relief of suffering humanity.

Dr. Greene's Nervura

For the Blood and Nerves.

For all diseases of the blood and nerves an unfailing specific has been found in Dr. Greene's Nervura for the blood and nerves. The importance of the discovery can best be attested by the thousands who have been restored to health under its magic influence.

If you feel the need of special advice call on Dr. Greene or write to him at his office, 148 State Street, Chicago, Ill. He will make your symptoms clear to you and tell you how to get well. There is no charge for such consultation.

SOME PATENT FACTS.

Under the heading "Facts," the New York Sun has this to say:
"The main facts of the war are too important and too helpful and too creditable to the country for them to be buried beneath sorrow at the war's accidents or resentment at the defects of its administration. Leaving out the incalculable political benefits of victory, the army's record would remain surprising after proof of every fault charged against any official connected with it, in or out of uniform."

"Even if Gen. Shafter had been as incompetent a commander at Santiago as disapproving criticism declares he was, the campaign there closed with success of scarcely paralleled brilliancy, and the American who would rather condemn Shafter than rejoice in his army's triumph falls in due appreciation of it."

"Even if Secretary Alger had been the most incompetent and unworthy secretary that ever sat in the war department, the total of actual achievement on the part of that bureau, in comparison with the number of troops supplied, would still surpass all precedents."

"If the sick who have come back to us from the awful climate of Cuba had suffered from blunders and neglect in the full measure charged against the war department, it would remain true that the care and comforts given to them have far exceeded any standards ever before known in armies."

"The total death list is peculiarly small."

"It has been a wonderful war, of which, after it is all finally over, the marks of grief and misfortune will be marvellously few, but the marks of national glory and good will be broad, deep, and indelible."

W. H. Appleby, the republican candidate for sheriff, is an unusually successful police officer. During his former term as sheriff he served every warrant given to him as well as many that had never been returned by his predecessors in office. He is a republican from the ground up, and is admittedly preeminently qualified for the place. It is unnecessary to praise W. H. Appleby, for his public record is known by all to stand for economical and efficient service, while against him no charge can be brought. He is the man for the place, and the voters will show their realization of the fact on November 8.

The popular idea as to what Uncle Sam should furnish his soldiers in time of war seems to vary. For instance, W.

E. Curtis, Washington correspondent of the Chicago Record, tells of a fond mother up in New York state, who has complied with the published request of the investigating commission and has sent in her complaint concerning the conduct of the war. She says there was great neglect at Tampa, Santiago and Camp Wikoff in furnishing towels to the troops.

Judge Sawyer will be the wonder of the world if he can saw enough wood to get himself elected governor of Wisconsin. Personally, Judge Sawyer is all right, but politically he stands for populism, free silver, and all the evils of the Chicago platform, and the majority against him will certainly be the largest on record.

Colorado mine owners and their dependents are still shouting for free silver, despite the fact that in eight years the production of silver in Colorado has declined from \$23,000,000 to less than \$18,000,000, while the gold product has increased from \$5,500,000 to \$16,579,000.

VETERANS RECALL THE DAYS OF 1861

SARGENT POST CELEBRATES
ITS ANNIVERSARY.

A Pleasant Program Was Furnished—Patriotic Address By Rev. A. C. Kempton, Followed By a Social Reasoned in Which the Old Soldiers Recounted Their Experiences.

The seventeenth anniversary of the establishment of W. H. Sargent Post No. 20, G. A. R., was celebrated at Post hall last evening. There was a large attendance of members and their families, while the Woman's Relief Corps was well represented. Commander C. D. Child was master of ceremonies.

Col. Kimberly, the sweet singer of patriotic songs, favored the audience with a number of selections, to which Mrs. Kimberly played the accompaniment.

Rev. Arthur C. Kempton, of the Baptist church, delivered the address of the evening, his subject being "Peace." He said there was no organization which he loved more and admired more than the Grand Army, unless it was the Woman's Relief Corps. One organization represented noble bravery; the other, self-sacrificing love. No subject is so timely at present as peace. The coming of peace is being celebrated not only in Chicago, but all over the nation. Yet there is no perfect peace in any nation. There never was a time in the history of the world when the nations were so armed as now. There is no real peace in the world over, but there are innumerable signs in all civilized nations that they are looking forward to a time of universal international peace. The essentials of peace are the elements of quiet, activity and security. In the principle of arbitration so much regarded during the past century, eminent statesmen see the morning star of the day of peace.

"America" was sung by all those present, led by Col. Kimberly, after which light refreshments were served by the ladies of the Relief Corps and then an hour or so was spent in playing cards and telling stories of days gone by. Fun and merriment both had their part in the reminiscences.

The evening was one of the most delightful in the history of the organization. Grizzled veterans were conspicuously present, and as they rehearsed the stirring scenes in which they had taken part they were the center of groups of young men and women who listened to their tales in open-eyed wonder, and had their patriotic blood fired by the stories told of hardships endured and achievements accomplished that the country might be saved from dismemberment.

JAMES RUGGLES WRITES HOME

Former Janesville Boy Has Been 10 in Porto Rico.

Lieut. James Ruggles, of the Rockford company, who formerly made Janesville his home, is now in Porto Rico, where he has been dangerously ill of late.

In recent letters from the Rockford company, which was the third regiment in Porto Rico, mention has been made of the decreasing number of sick soldiers. In a letter dated October 6 he writes to a friend, that although a number of the boys are still in the hospital their cases are by no means serious. The many Janesville friends of the lieutenant will be glad to learn that he has nearly recovered from his severe illness, which cost him thirty-three pounds of avoirdupois. His letters contain much that is of interest.

On October 14, Miss Matilda Ann McDonald was joined in holy wedlock to Alonzo McClelland Burkheimer. The bride groom is from the town of Fulton. On October 19, Miss Florence Moon, of Ridgway, and George August Henry Schumacher, of this city, were married at the parsonage at 8:30 o'clock in the evening.

BELOIT ROOTERS HERE ON SPECIAL

THREE HUNDRED OF THEM IN
JANESVILLE.

Their Stay Here Was Brief, For They Were On Their Way to Milwaukee—Great Contest Played This Afternoon—Small Sized Delegation Went From This City.

Accompanied by a band three hundred foot ball enthusiasts from Beloit college arrived in Janesville this morning on a special over the Chicago & Northwestern railroad at 8:30 o'clock. They were on their way to Milwaukee where this afternoon they yelled them selves hoarse in behalf of their team which met on the gridiron the Wisconsin University eleven.

No one needed to be told that the special that arrived here this morning contained football rooters. On all sides Beloit's yellow colors were to be seen and even the outside of the cars were decorated. Within all was merriment. The college boys were singing songs and were practicing their favorite yell.

From this city a small sized delegation boarded the train.

The score stood 17 to 0 in favor of Wisconsin.

WAR CLOUD HURTS TRADE.

Weakened by Political Uncertainties in Europe.

YET THE VOLUME IS LARGE.

Clearing House Exchanges Show Improvement over the Corresponding Week of Last Year—Flight of Exchanges Across the Water.

New York, Oct. 22.—R. G. Dun & Co.'s weekly review of trade says:

"With growing foreign demand for American products, exchange is influenced mainly by political uncertainties abroad. While Europe waits for the outcome between Great Britain and France about the upper Nile, the financiers of all European countries are trying to force upon each other the burden of providing cash for the enormous demands of the United States. England has so managed as to make France and Germany send most of the gold, and the resulting war of exchanges between foreign nations checks for the moment the movement of gold this way. Yet these and all other causes do not so far hinder business as to prevent an excess over the most prosperous of previous years. The exchanges through all clearing houses for the last week have been 6 per cent larger than last year and 1.7 per cent larger than in 1892, but outside New York for the week transactions were smaller than in 1892.

"Failures for the week have been 221 in the United States, against 234 last year, and 24 in Canada, against 35 last year.

Bradstreet's says:

"The dominant feature of the general business situation is unquestionably the active foreign demand for wheat, wheat flour, and indeed all our cereal products, and the business reported on this account during the last ten days seems worthy of rank with the best recorded in any corresponding period. Prices were quite strong, notable in this respect being all the cereals, lard, pork, cotton, print cloth and raw sugar. Little change is noted in the iron and steel market. The general industrial situation continues favorable, employment being quite general, particularly in the west, except in the glass industry, where a shut-down pending a wage-scale settlement exists.

"Wheat (including flour) shipments for the week aggregate 4,485,583 bushels, against 4,729,995 bushels last week. Since July 1 this year the exports of wheat aggregate 61,210,889 bushels, against 72,472,203 bushels last year. Corn exports for the week aggregate 2,397,191 bushels, against 2,796,292 bushels last week."

Decrease to Wisconsin's Tax.

Madison, Wis., Oct. 22.—The state board of equalization completed the apportionment of the state tax for 1898 among the counties. The total tax is \$1,492,570, which is \$502,500 less than the tax for 1897. Two years ago Gov. Scofield announced a deficit of \$350,000 in the state treasury and urged a state tax to fill it. The state had been running behind for years and had bridged over from year to year by borrowing from the railroads, banks and state trust funds. The unusual tax of last year was levied to fill the hole in the treasury. The state being now "out of the woods" financially, the tax is again reduced.

Frost Kills Yellow Fever.

New Orleans, La., Oct. 22.—Frost is breaking the backbone of the yellow fever scare of 1898 throughout the states of Louisiana and Mississippi. With the advent of tonight this year's fever will practically end and quarantines are expected to be lifted by Oct. 25, which will be next Tuesday. Friday morning the mercury was down to 43 degrees in this city and the weather department says the temperature in New Orleans will drop to the 40 degree mark.

Fighting in the Transvaal.

New York, Oct. 22.—A Pretoria dispatch to the Press says that Chief Opehu, with 20,000 followers fully armed, and four cannon, supplied by white traders, has attacked the larger, and that heavy fighting is going on. The uprising grows out of the massacre of a Lutheran missionary and his family, in the town of Zoutpans Berg, by the natives. Gen. Joubert was sent to punish the tribesmen with a force of 5,000 men.

PEOPLE WE KNOW.

They Are Janesville People and What They Say Is Of Local Interest.

When an incident like the following occurs right here at home it is bound to carry weight with our readers. So many strange occurrences to the rounds of the press, are published as facts, when the intelligent reader knows they cannot be true, there is no wonder that people become skeptical. On one subject skepticism is rapidly disappearing. This is due to the actual personal experience of our citizens and their public utterances regarding them. The doubter must doubt no more in the face of such evidence as this. The public statement of a reputable citizen living right here at home, one whom you can see any day, leaves no ground for the skeptic to stand on.

Mrs. S. L. Deben, of 64 S. River St., says: "During the last two or three years I suffered most of the time with a terrible dragging down pain in my back just over the kidneys. It was very trying when I was at work, and if I did any lifting my bladder became affected, causing me considerable annoyance. I also had attacks of headaches, which seemed like congestion in the top and back of my head. When I read about Doan's Kidney Pills I did not have any too much confidence in them, but my daughter got a box at the Janesville Co.'s drug store and persuaded me to use them. I am very glad I did so for they took right hold and in a wonderful change in my condition I hardly realized how bad I was until Doan's Kidney Pills brought me relief from the afflictions. I have recommended this remedy on several occasions, and will do all that I can to let others know of its merits."

Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no other.

Rain Ruins Many Farmers.

Grand Forks, N. D., Oct. 22.—The continued wet weather of the past two weeks is a calamity of great magnitude to the farmers of the northern part of North Dakota. Conservative estimates place the damage already done at \$5,000,000, with a possibility that it may reach double this amount.

Ohio Bank Closes Its Doors.

Washington, Oct. 22.—The comptroller of the currency has been advised that the First National Bank of Lisbon, Ohio, capital \$50,000, had closed the doors. The dispatch from the bank examiner said the failure of the bank appeared to have been caused by mismanagement.

Dreadfully Nervous.

GENTS.—I was dreadfully nervous and for relief took your Karl's Clover Root Tea. It quieted my nerves and strengthened my nervous system. I was troubled with constipation, kidney and bowel trouble. Your tea soon cleansed my system so thoroughly that I rapidly regained health and strength. Mrs. S. A. Sweet, Hartford, Conn. Sold by People's Drug Co.

Pennsylvania Miners Strike.

Pittsburg, Pa., Oct. 22.—Two thousand and coal miners in the fourth and fifth pools have struck for the enforcement of the Chicago agreement. The strikers are preparing for a long siege and are establishing camps near the mines to prevent non-union miners from working.

MAY BRING ON WAR.

Crisis in Relations of Great Britain and France.

London, Oct. 22.—The Daily Mail says it has the highest authority for stating that the French government notified the British government three days ago that it would not abandon Fashoda. The French position is now to resist openly Great Britain's demands. Count Muraviev's visit to Paris is believed to assure France of Russia's support. The situation has assumed a critical stage. London newspapers have taken on an alarming tone. Reports from all parts of France of naval and military activity fill columns of the daily papers.

Reports from British naval stations show that the whole British fleet is ready for an emergency. General Kitchener will arrive Thursday. Great Britain will undoubtedly remove Marchand by force, thus affording a cause for war.

Head of Illinois Woman's Clubs.

Chicago, Oct. 22.—Mrs. Robert B. Farson of the Chicago Woman's club was elected president of the Illinois Federation of Woman's Clubs practically without opposition. The election resulted as follows: President, Mrs. Robert B. Farson, Chicago Woman's club; vice president-at-large, Mrs. Anna L. Parker, Quincy Woman's council; recording secretary, Mrs. Virginia Barlow Le Roy, Streator Woman's council; corresponding secretary, Mrs. John A. Lutz, Lincoln; treasurer, Miss Sarah Maria Fairbank, Wednesday club, Jacksonville.

ONE IN EVERY FOUR

One Person in Every Four Suffers From Piles.

About one person in every four suffers from some form of rectal disease. The most common and annoying is itching piles, indicated by warmth, slight moisture and intense, uncontrollable itching in the parts affected.

The usual treatment has been some simple ointment or salve which sometimes gives temporary relief, but nothing like a permanent cure can be expected from such superficial treatment.

The only permanent cure for itching piles yet discovered is the Pyramid Pile Cure. Not only for itching piles, but for every other form of piles, blind, bleeding or protruding. The first application gives instant relief and the continued use for a short time causes a permanent removal of the tumors or the small parasites which cause the intense itching and discomfort of itching piles.

Many physicians for a long time supposed that the remarkable relief afforded by the Pyramid Pile Cure was because it contained cocaine, opium or similar drugs, but such is not the case. A recent careful analysis of the remedy showed it to be absolutely free from cocaine, opium, or in fact any poisons, injurious drugs whatever. Sold by druggists at 50 cents per package.

Send to Pyramid Co., Marshall, Mich., for free book on cause and cure of piles.

Quay Will Make Reply.

Washington, Oct. 22.—Senator Quay for more than a week has had in preparation a speech which he purposes to deliver in Philadelphia some night next week in answer to the attacks made upon him on the stump as well as in answer to the criminal charges growing out of the alleged misuses of the funds of the People's bank. The speech will probably be delivered at the Academy of Music in Philadelphia.

Troops Ordered from Virden.

Springfield, Ill., Oct. 22.—Gov. Tanner has ordered company D, Capt. Fowler, of Elgin; company H, Capt. Stein, of De Kalb, and company E, Capt. Simpson, of Peoria, all of the Third infantry, to leave Virden and proceed to their homes. This leaves still on duty at Virden, troop A, Capt. Lino, of Chicago, First cavalry, and company C, Capt. Bacon, of Oregon, Third infantry, on guard there.

A Suffering Soldier.

This veteran fought for his country; suffered untold hardships, and returned with health shattered. Many a brave soldier has the same history. To-day this one rejoices in a new-found strength and tells his experience to benefit others.

No man is better known and liked in that rich tier of Illinois counties, of which Peoria is the centre, than genial Chester S. Harrington, of Princeville, Ill.

Mr. Harrington is a veteran of the late war. Like many another brave soldier, he suffered not only during that service, but for years afterwards from diseases contracted then.

For years his health was shattered; his sufferings increased. He was unable to gain relief, but now he tells a story which is of profit to many.

"I served three years in the 124th Illinois, enlisting at Kewanee, Ill.," said he. "I was in Libby Prison and suffered like many another Northern soldier."

"The strain of army life did its work in undermining my health, although the collapse did not come for some time after."

"For fifteen years I suffered from general debility and nervousness so badly that I could not sleep. Indigestion resulted and my misery increased."

"My eyes began to fail, and as my body lost vitality my mind seemed to give way. I could scarcely remember events that happened but a few weeks before."

"For two years I was unfitted for business. I was just able to creep around during part of this time, and there were many times when I could not get up."

"My brother is a doctor, but all his efforts to help me failed to give any relief."

"I tried a number of remedies without

avail. Finally, having read articles regarding cures that had been effected by Dr. Williams' Pink Pills for Pale People, I decided to try them. That was in 1896. I bought a box and took the pills according to instructions."

"Four days later I had the happiest hours I had known for years. That night I went to sleep easily and slept soundly as a child and awoke refreshed."

"After I had taken four boxes of the pills, I found that I was cured and had also increased 27 pounds in weight."

"This greatly surprised my friends, who thought my case was a hopeless one. I began my work again and have continued ever since in excellent health."

"Another valuable gain to me was, that while I was taking these pills I had been cured of the smoking habit, which had formed when I was a boy and had clung to me all these years. The craving for tobacco left me and I have never experienced it since."

"I cannot say enough for these pills and have recommended them to many."

"To verify this statement Mr. Harrington made affidavit to its truthfulness before Lincoln M. Coy, Notary Public."

Dr. Williams' Pink Pills for Pale People strike at the root of disease by acting directly upon the impure blood. Their power is marvelous and many wonderful cures have been made. Druggists consider them a potent remedy, and all sell them."

STILL ASK FOR MORE TIME.

Spanish Commission Adopting
Dilatory Tactics.

DEADLOCK NOW PREVAILING.

Madrid Representatives at Paris Are
Endeavoring to Delay the Peace No
negotiations Until the Anglo-French
Crisis Develops.

Paris, Oct. 22.—A New York World correspondent cables: "The peace commission proceedings have reached a serious deadlock. The American commissioners now appear to be satisfied that the Spaniards are adopting a deliberate policy of delay."

The Spaniards were definitely and decisively informed that the United States could assume no responsibility for the Cuban debt and they were invited in firm language to proceed to the consideration of a new point arising from the protocol. Instead of following that suggestion they presented Friday a series of voluminous memoranda in answer to the American arguments on the debt question and also brought forward alternative proposals. Friday's session was the longest the joint commission has yet had, but no progress whatever was made with its work. The reading of these futile memoranda occupied all of the time.

The Spaniards evidently wish to prevent any definite step being taken until the Anglo-French crisis develops, for an outbreak of war would afford a chance for further delay in completing the treaty. They are presuming on the courtesy and generosity of the American commissioners.

Insurgents Levying a Duty.

Manila, Oct. 22.—The insurgents are enforcing an export duty of \$35 a ton upon hemp from southern ports brought to Manila. They are also enforcing 5 per cent tonnage upon steamers and 20 per cent upon freights. American and British firms are compelled to pay these charges, though they protest strenuously against such an arrangement, because goods are entering Manila by railway from the north which evade duty.

Solve Two Insurgent Boats.

London, Oct. 22.—A dispatch from Manila to a news agency makes no mention of the reported naval fight between the Americans and Filipinos. The only reference to trouble made in the dispatch is the remark that "the Americans continue to arrest all rebel vessels as they arrive at Cavite. They captured two this week."

Sword Given Gen. Burt.

Jacksonville, Fla., Oct. 22.—The Second presented Gen. Burt with a fine sword before he left. The officers and soldiers generally contributed to this expression of esteem. Maj. Purington made the presentation speech, to which the general responded with much feeling.

Washington, Oct. 22.—Rear Admiral Schley having reported to the navy department that the Porto Rico evacuation commission has concluded its work, the navy department has directed him to return to Tompkinsville on the cruiser Newark with his report and the clerks of the commission.

Ultimatum to Blanco.

Havana, Oct. 22.—The American military commission has notified the Spanish commission that American troops will come to the island in November whether or not evacuation is completed by the Spaniards.

A Pain, a Cramp

In Your Heart, Fluttering or Palpitation, Dizzy Spells, Irregular
Pulse, Etc., Indicate a Need ofDr. Miles' New Heart Cure,
The Great Heart and Blood Tonic.

Sudden deaths are nearly always caused by heart disease or heart failure, but all these are as a drop in the bucket compared with the thousands and hundreds of thousands who are suffering from dyspepsia, liver complaint, kidney trouble, weak lungs, poor thin blood, nervous prostration and wasting diseases—all the result of a weak or diseased heart—a heart incapable of performing the arduous duties required of it. Dr. Miles' New Heart Cure will strengthen and regulate the action of the heart. It will enable the digestive organism to do its work effectually and completely and give recuperative capacity to the organic functions of the system. It will make the thin plump, the weak strong.

Mrs. Bettie Shepherd, Fayette, Mo., says: "About nine years ago I began to be troubled with my heart. I would be short of breath and have palpitation after any little exertion; occasional pains in left side and shoulder; my pulse grew irregular and would lose a beat once in six or seven times. As these symptoms grew worse, my feet and hands would

swell towards evening; I had difficulty in sleeping and would have to sit up in my chair. My physician said I could not live long. Hearing of Dr. Miles' New Heart Cure, I bought a bottle and I began to improve before it was gone. That was five years ago. As I continued the treatment my appetite returned, my pulse grew strong and regular, and in a year my trouble was all gone. I am now enjoying excellent health for a lady sixty years old, and believe I owe my life to Dr. Miles' New Heart Cure."

The letter which follows came from Mrs. M. C. Krieger, of Seipio, Ind. Ter.: "About four years ago I noticed irregular action of my heart. It would flutter and palpitate upon the slightest exertion, and affected my health so that I could not do any work. After trying two doctors and obtaining no relief I began to get advertised remedies, but my condition continued to grow worse right along. My heart would seem to stop beating, and my feet and ankles would become as cold as if they were dead; then I would feel a piercing pain like that of a knife going right through my breast, which would be followed by great

palpitation and I would clutch my breast in great agony. A friend told me about Dr. Miles' New Heart Cure and I sent for it at once. After taking a few doses of that medicine I could see that the spells were growing less severe, my appetite improved and I was finally restored to my former good health. I am strong and well now and can do all of my own work with ease and comfort."

A weak heart affects all other organs of the body by depriving them of nourishment. It is frequently accompanied with nervousness, irritability, unsound sleep. Dr. Miles' Heart Cure is the most reliable medicine known for such troubles and will positively give relief when others fail.

All druggists are authorized to sell Dr. Miles' New Heart Cure on a guarantee that first bottle will benefit or money will be refunded. Be sure and get Dr. Miles' New Heart Cure. Take nothing else. Write us about your troubles and ailments and we will give you the honest advice of a trained specialist absolutely free of charge. Booklet on heart and nerves sent free. Every Word Is True

All that has been said about . . .

Favorite Stoves and Ranges,

And their superior fitness for heating purposes is so. And all that is good has not been said yet. It would take volumes to tell of their entire worth. That Favorites are the most popular Stoves with Janesville people is shown from the great numbers in use. They have been fully tried and not found wanting in any degree.

The Favorite has LARGER PIT BOTTOM, BASE and BACK FLUES, than any other base burner with two flues. The lower half of ash pit is made DOUBLE forming large SIDE FLUES, which are a part of the pit bottom flues, making the largest flues, and greatest amount of radiating surface in the lower part of any base burner.
